

***Examiner's Statement of Reasons for Allowance***

1. Claims 8-13 are allowed.

2. The following is an examiner's statement of reasons for allowance:

The prior art made of record fails to anticipate or make obvious the claimed invention. Specifically, the prior art fails to teach, in combination with the remaining elements as recited in claim 8:

The present invention is directed to a mobile radio apparatus.

The following is an examiner's statement of reasons for allowance:

Regarding claim 8, the prior art does not anticipate, nor does it suggest, the details that are claimed in the independent claims. Particularly when the claims are interpreted as argued by applicant on pages 4, and 5. These details are the same as disclosed in applicant's specification. These details, as now interpreted by the examiner in view of the applicant's remarks, that are not shown in the prior art include the support including a first flat conductor placed along one plane inside the first case, and a second flat conductor and third flat conductor placed facing the one plane of the first flat conductor and placed side by side in a width direction of the first case; and a power supply section that supplies power to the first flat conductor and supplies power selectively to the second flat conductor or the third flat conductor at a different phase from the phase power supplied to the first flat conductor.

Claims 9-13 are allowed for depending on claim 8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Inquiries***

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Huedung Mancuso whose telephone number is (571) 272-1939.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Douglas Owens, can be reached on (571) 272-1662. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

4. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
